

369 NUHEMP™/MC

MSM™/MC SOOTHING GEL

Product Description:

MSM Soothing Gel is an innovative and convenient way to apply the numerous benefits of MSM – topically! A cool, water-based gel with the addition of hemp oil, it is specially formulated for fast-acting relief of sore muscles and aching joints. It is also beneficial for any inflammation near the skin's surface. MSM Soothing Gel rubs in fast and readily absorbs for a quick, no-mess application. Use daily as part of your pet's joint regenerative, anti-inflammatory and maintenance program.

Product Benefits & USP's:

- Made with human-grade ingredients
- No chemicals, fragrances or colours
- Supplies nutritional sulphur, important for the formation of collagen protein tissue
- Anti-inflammatory and pain-reducing properties
- Aids in skin repair and healing
- Used within the equine industry on performance horses for years
- No animal by-products or animal testing
- For human, pet and equine use

Ingredients:

Water, MSM (Methyl-sulfonyl-methane), Glycerin, Triethanolamine, Polysorbate, Hempseed Oil, Carbomer, Phenoxyethanol (preservative), Ivy Extract, Paraguay Green Tea Extract, Sodium Lactate, Tetrasodium EDTA, Methylparaben (preservative), Propylparaben (preservative).

Directions & Daily Recommended Dosages:

Massage gently and directly onto the skin area as needed. Use daily as part of a joint regenerative, anti-inflammatory and preventative program.

Specialty Nutrient Information:

MSM: Methylsulphonylmethane (MSM) is a rich source of organic sulphur essentials for the correct functioning of connective tissues and joints. MSM helps maintain joint fluid and cartilage and therefore healthy joint function. MSM is now widely recommended by veterinarians for dogs and cats that suffer from age and/or injury related joint problems. However, MSM has already been used with race horses for nearly 20 years. MSM is widely recognized by veterinarians for its contribution to animal health care. Research has shown the importance of MSM as a dietary source of sulphur.

Hemp Seed Oil: Hemp seed oil is one of the world's richest sources of polyunsaturated fats, including both of the essential fatty acids (Omega 3 and Omega 6) and GLA (gamma linolenic acid), which make it an excellent natural emollient and moisturizer. Body care products containing hemp seed oil can reduce skin discomfort by soothing & restoring dry or damaged skin and increasing the natural moisture retention capacity.
